Hawk Technology, Ltd., a leading designer and manufacturer of tooling, fixtures, robotics integration solutions, vision inspection systems, and other customized automated has recently announced the development of a leadership team resulting in several promotions. "We have seen unprecedented growth in this company, and I am excited about the opportunities that lie ahead for our new leadership team. It's an exciting new chapter for **Hawk Technology, Ltd**", comments Josh Clare, previous President and CEO. As a result, Mr. Clare will take on the leading role in Business Development, and Rob Doneth has been promoted to the position of President of Hawk Technology. Rob has been with Hawk for 4 years and was previously an Automation Manager.

In conjunction with Mr. Doneth's promotion, Mark Ross has been named the CEO/CFO of Hawk. "I'm excited to lead the 75 employees of **Hawk Technology, ALM Positioners and United Craftsmen**. 2016 is geared up to be a great year!" comments, Mr. Ross. Mark has been with Hawk/ALM for 3 years and was formerly President of ALM and CFO of Hawk Technology.

Myron Pundt has been promoted to VP of Engineering/ R&D for Hawk. Myron has been with Hawk for 20 years and was previously the VP of Engineering.

Kevin Toft has been promoted to President of **ALM Positioners, Inc**, which is an independent subsidiary of **Hawk Technology** acquired in 2015. Mr.Toft was previously Vice President and General Manager, he joined the ALM team in 2015.

**United Craftsman** was acquired by Hawk in 2014, Mr. Paul Hackbarth is the President of United Craftsmen formerly General Manager and has been with UC for 22 years.

**Hawk Technology, Ltd.** is very excited about the transition and looks forward to this new focus on leadership
