Press Release

Subject: Automation Service and Support in a Time of Need

Hawk Technology Ltd. is pleased to offer our services to anyone in need of retooling or automating their factory to make necessary equipment changes in order to manufacture ventilators, masks, or medical equipment required to get our nation through this troubling time.

Hawk Technology Ltd, currently has a large, very proficient staff at the ready to jump in and make any necessary changes, or build any necessary equipment needed to manufacture urgently needed medical equipment. We are desperately trying to get the word out that we are at the ready to help with tooling, fixtures, automation, repurposing, reprogramming robotics, supplying robots, or any other manufacturing need that you may have in order to help.

Hawk Technology Ltd, has been supplying US manufacturers with high end factory automation and manufacturing equipment since 1994 and stands at the ready to assist with any project large or small in order to help our country conquer this pandemic. If your manufacturing facility is considering or needing assistance with retooling or automating to provide medical equipment please don't hesitate to contact us, we are here to help and can respond at a moment's notice.

Please feel free to distribute this Press Release to any company, or government official that could benefit from our assistance.

If you have any questions or need additional information, please contact us at (563) 580-1064 or Jclare@hawktechnology.com

Sincerely,

Joshua Clare

President
Hawk Technology, Ltd.
